

SHE IS HIRING - A Creative Mind

We're a small post-production studio in Copenhagen looking for someone who loves working with visuals - still or motion. Whether you're into retouching, editing, or both, we'd love to hear from you. You might be new to the field or a freelancer wanting to join a studio community. ☐

SHE IS HIRING - A Creative Mind

She Post Production is looking for a new creative to join our small team in Copenhagen. We're looking for a passionate mind who wants to be part of a small, collaborative post-production studio - whether your focus is still retouching, film editing, or somewhere in between.

You might be a pro at Photoshop, or maybe you feel most at home editing motion. Either way, we'd love to hear from you.

At She Post Production, we work across stills and motion - crafting high-end imagery in a collaborative studio environment. We're a small team that values curiosity, creativity, and good energy in our space on Vermundsgade 40C.

Your work could include:

- Retouching and colour grading in Photoshop / Capture One
- Editing and colour grading films and creative projects in Premiere Pro / DaVinci Resolve
- Contributing to both stills and motion projects with the team
- Helping with general studio tasks - from file management to keeping our shared workflow running smoothly
