

Commercial Designer to an international company

We're on the lookout for a bold, commercial-minded textile designer to join our team.

If you have a few years of experience under your belt, a sharp eye for trends, and plenty of creative ideas, this could be your chance to really shine. At our place, no two days look the same. We move fast, think fresh, and thrive in an agile environment. That's why we're searching for someone positive, versatile, and ready to wear many creative hats - whether it's concept development, fast execution, or translating a brand's DNA into designs that sell.

What makes this role exciting? You'll collaborate daily with our sales team and buyers, turning design into real market impact. It's not just about creating beautiful textiles - it's about shaping collections that resonate across Europe.

You'll be stepping into a growing, supplier-based Danish company with a strong customer portfolio and a track record of success. Here, your ideas won't sit in a drawer - they'll go straight into production and onto the shelves. If you're ready to push boundaries, think commercially, and grow alongside a dynamic team, we'd love to hear from you.
