You have a minimum of 3 years of experience in graphic design and visual communication from a competing advertising agency or the client side in a design role. You have a well-developed toolbox to draw on when executing creative work and you know what's trending in today's world of design. If you're a fast learner, hard-working, sociable, internationally oriented and someone that likes to be challenged, then CO/PLUS is the right fit for you.

You must fulfil the following requirements:

- Have experience and natural talent within graphic design and visual communication
- Independent with the confidence to take ownership of creative execution for clients
- Ability to build a creative presentation that shows the creative process and explains your thoughts behind the execution
- Opinionated and always ready to back-up your work with supported arguments
- Work well under pressure and able to multitask on several projects at once
- Excellent command of the Adobe Creative Suite – particularly Illustrator, Photoshop and InDesign
- Outgoing with good people and communication skills
- Fluent in both written and spoken Danish and English

THE JOB

In the creative department, you will be translating strategic insights and creative directions into high quality executions of visual communication and graphic design. Each project at CO/PLUS is unique, so you can expect a new challenge every day – be prepared to work on anything between building an international brand from the ground up to making tweaks on the final artwork of a national campaign. You'll have responsibility of your own creative tasks and gradually gain more independence.

We're a flat organization where the individual's role is defined by their contribution – not by their title, department, or seniority. Whether it's brand, product or marketing innovation, we find and deliver the right idea.
