

Digital graphic designer and content creator at CEBRA

CEBRA architecture is looking for a talented graphic designer, who can create beautiful and engaging content for our websites and social media.

We are a Danish architecture studio that makes art for life and believes in having serious fun.

You will be part of a multidisciplinary team working within architecture, CEBRA's research unit WISE and the tech startup Common Sense.

Here, you will get to use your graphic design skills across a variety of creative tasks, ensuring that you learn and grow as a professional designer each day. You will be handling graphic design and SoMe content.

The main tasks for the position are:

- Graphic content and website for WISE and Common Sense
- Graphic content for the e-book release of WISE
- Short animations, GIFs stories and brand content
- Creation of social media content (animations, illustrations, video)
- SoMe campaigns
- Ad hoc design related tasks

Your profile

We are looking for a talented designer, who is perhaps early in her/his career. The ideal candidate:

- Holds a graphic design degree
- Has a natural flair for creating beautiful content that both excites and intrigues
- Works with strong attention to detail
- Is a highly skilled user of Adobe CC, especially Premiere Rush / Pro, After Effects, Photoshop / Lightroom, Illustrator and InDesign
- HTML5, CSS, and JavaScript is a plus
- Has experience with design of websites and SoMe content
- Has experience with animations
- Has fluent English skills
- Takes initiatives, is curious and eager to learn new things
