

Visual Designer for Platforms

We are looking for a skilled designer to join our Saxo Experience team in Copenhagen. At Saxo Bank we are committed to constantly improve the user experience and we know that the visuals are a big part of that, which is why we are looking to expand our team. If you enjoy working in a fast-paced, dynamic environment with many different tasks and stakeholders and are capable of adapting to new procedures and conditions as needed, you are the candidate we are looking for. Your communicative and visual skills are important to help us keep improving on an industry leading, best in class digital experience.

About the job

In the role as Visual Designer, you will design and deliver best in class digital solutions and services for our customers of today and tomorrow. You will be a part of building our platform and translate wireframes, sketches and inputs from cross-functional teams into creative memorable brand experiences. The work is focused on improving the visuals and connect those to the goals of our latest strategy to move our experience to the next level. Your responsibilities will include:

- Creating visual mockups in collaborations with UX designers for platforms
- Help maintaining our design system
- Help execute and refine high fidelity deliveries
- Ensuring that all technical design requirements for projects are met
- Ensuring that design and visual communication are aligned with our Corporate Visual Identity and Design System
- Help execute high fidelity prototype for our UX designers and research team

Your profile

We imagine the ideal candidate is:

- Focused, energetic, empathetic and has a collaborative mindset
- Always looking to improve yourself and the team around you
- A good communicator, with your team and stakeholders
