

Choir lead

Choir lead for an experienced young rhythmical choir (Wednesdays at 2100 Østerbro)

Modern Vocal Ensemble (MVE) started 7 years ago as a vocal group with singers that have prior choir experience and would like to improve their choir skills. We are an ambitious team with an average age of about 30. MVE focuses on creativity, good team work and developing a harmonious ensemble sound. The repertoire is based on original arrangements of modern rhythmical music and spontaneous circle songs. All MVE members have training in improvisation and several have solo experience. MVE is used to putting on concerts and has done several professional (paid) gigs in the past.

We are looking for a choir lead effective immediately to rebuild the choir after corona. Wages follow the standard evening school tariff + a 50% bonus for two lessons. Choir practice takes place every Wednesday from 18-20 in Østerbro. We can send samples of audio and video from concerts and studio recordings upon request. The ideal choir lead approximately fits the age group, has a good energy, and would like to take us to a higher level. This is an international group that is taught in English. You will have the full support of the Korskolen team to get up and running with the choir.
