

Fotograf

Jobopslag på engelsk.

Are you a skilled photographer with a passion for creating photos and videos that impact fashion brands' visual expression around the world?

We are looking for a new colleague to shoot and develop a wide range of visual material that contributes to a continuous strong positioning of our two international fashion brands; VERO MODA & MAMALICIOUS.

Your team

You will become part of a dynamic and international company, who is going all in on our digital journey and transformation. You will join our Brand & Customer Experience department, consisting of more than 20 dedicated and skilled colleagues working within Marketing, Graphic Design, Omnichannel and Photo production. With us, there is room for differences and plenty of opportunities to spread your creative wings and turn your ideas into reality. We collaborate closely across the entire team, and with you onboard, we hope to increase the strength of our visual identity even further.

The job

As a Photographer in VERO MODA & MAMALICIOUS, you play a significant role in ensuring high quality in all photo and video-related material. You will be working with a mix of assignments and have different workflows from day to day with tasks ranging from product images (packs) and e-commerce model images to internal sales materials and campaign assignments.

More specifically, your tasks include:

- Creating model images for internal catalogues, social media and other sales channels, both B2B and B2C
- Creating video content for internal and external channels
- Handling and shooting product images (packs)
- Managing different types of digital assignments, including uploading, downloading and archiving files, while also ensuring quality control
- Retouching, colour grading and video editing
- Handling day-to-day assignments for our E-commerce, Social Media and Sales team – e.g. creative flatlays.

Your personality

You are creative and full of ideas – and you eagerly stay up to date on the latest trends and techniques within your field. You have an interest in fashion and know how to make people and styles look good in photos and videos. You have a structured approach to your work, enabling you to maintain an overview of many ongoing tasks at the same time. It is important that you are able to deliver high quality with short deadlines and that you see solutions rather than problems. Joining a dynamic and service-minded team, it is equally important that you contribute to the team atmosphere with your high energy level and positivity.

Qualifications

- Educated and highly skilled photographer with 3-4 years of experience working professionally with photos and video
- Solid experience with lighting, colour grading and retouching
- Experienced user of Photoshop, Capture One and Premiere Pro
- Experience working with models is considered an advantage
- Fluent in English, written and spoken.
