

Dynamic site-specific residency (Feb 2023): call for artists

Apply by 4th September to be part of this exciting dynamic site-specific residency at Xenon in Huset.

Application deadline: 4 Sept 2022
Residency dates: 27 Feb - 4 Mar 2023

Newman Allen and Carol Hayes (Assemble Theatre Collective) invite artists to be part of the 7th instance of my site | in space, a site-responsive residency at Xenon in Huset.

Over the course of a few days, the resident artists create work in a dynamic dialogue with the site. Towards the end of the creation process, the curators put it together into a show: a dynamic, spontaneous creation that exists for just one day.

my site | in space is an invitation to experimental, interdisciplinary, site-specific creation. It is ideal for emerging and established artists from a range of disciplines, including (but not limited to) experimental theatre, performance art, live art, dance, sound art, installation and art-activism.

Apply to participate in this exciting site-specific residency by **Sunday 4th September**.
