

Culture Box is looking for a new Artist Care

Join the team of Copenhagen's electronic music scene.

We're looking for a new **Artist Care** to support, manage, serve and be together with the artists on our opening nights.

Culture Box

Culture Box is the most prominent venue for electronic music in Denmark. Ever since the club opened in 2005, Culture Box has delivered lineups of the best international and local artists of the underground music scene on a weekly basis.

Artist care is essential at Culture Box. It is vital in order to fulfill our vision and keep our unique position in the scene. Culture Box is awarded one of just 10 networking and genre venues for 2022-2024 and the only one in electronic music. To achieve this status we meet demands from The Danish Arts Foundation and Copenhagen Municipality such as "professional planning and handling of artists" why your role as Artist Care is highly important for Culture Box. Add to that, it's also a must in regards to continuously bring top class artists to our venue and maintain our reputation being widely regarded Denmark's leading electronic music venue.

The Artist Care works in close collaboration with the Night Manager throughout the night. Your names and phone numbers are written in the itineraries received by the artists, so they will be able to reach you during their stay. It's the Night Managers' responsibility to make sure the technical equipment is set up, tried and tested during a full soundcheck before opening of the night. During the night, however, it's up to the Artist Care to assist with technical assistance and guidance for the artists when needed and make sure all artists get the support they need.
